

AGREEMENT REGARDING LANDSCAPE IMPROVEMENT PROJECT

This AGREEMENT (the "Agreement") is entered into this 25 day of August 2009 by and between PARKER JORDAN METROPOLITAN DISTRICT (the "District"), a quasi-municipal corporation and political subdivision of the State of Colorado; ARAPAHOE COUNTY WATER AND WASTEWATER AUTHORITY (the "ACWWA"), a political subdivision of the State of Colorado; and SOUTHCREEK MASTER HOMEOWNERS ASSOCIATION, INC. (the "Association"), a Colorado nonprofit corporation; individually referred to herein as the "Party" and collectively referred to herein as the "Parties".

WHEREAS, the District was formed and exists as a special district pursuant to § 32-1-101, *et seq.*, C.R.S. for the purpose of providing certain public improvements, facilities and services, to and for the use and benefit of the District, its residents, users, property owners and the public; and

WHEREAS, pursuant to § 32-1-1001(1)(d) & (f), C.R.S., the District is permitted to enter into contracts affecting its affairs; and

WHEREAS, pursuant to § 29-1-204.2(3)(b), C.R.S., ACWWA is permitted to enter in contracts ; and

WHEREAS, the Parties wish to cooperate to facilitate the construction and maintenance of certain public landscape improvements.

AGREEMENT

NOW THEREFORE, in consideration of the mutual covenants and promises set forth herein, the receipt and sufficiency of which are hereby acknowledged, the Parties hereto agree as follows:

1. Purpose. The purpose of this Agreement is to set forth the terms upon which the Parties have agreed to cooperate in constructing and maintaining certain landscape improvements within property known as ACWWA's Race 1 Well Site (the "Property"). Such landscape improvements are described in **Exhibit A**, attached hereto and incorporated herein by reference (the "Project").
2. Construction. The District shall manage the construction and installation of the Project. The contractor selected for the Project shall supply a one year warranty on all work provided and must obtain a triple obligee bond relating to the Project naming each Party as an obligee. Any Party shall have the authority to initiate any claims associated with Project, at their sole cost and expense, and each Party agrees to cooperate with the other Parties in prosecution of any such claim, but without financial liability therefor.
3. Project Costs. The District and ACWWA agree to split all design, construction and installation costs associated with the Project equally up to Five Thousand Dollars (\$5,000) each.

Total costs shall not exceed Ten Thousand Dollars (\$10,000) without the written consent of the District and ACWWA.

The District shall pay contractor invoices for Project costs upon presentment and shall submit payment request for half of all invoices from ACWWA. ACWWA shall reimburse the District within thirty (30) days of receiving such payment request. Upon completion of the Project, the District shall provide ACWWA with a final accounting of the Project costs.

4. Ownership. The Parties agree that upon completion of the Project, ACWWA shall accept ownership of the Project improvements.

5. Maintenance. The Parties agree that upon completion of the Project, the Association shall be solely responsible for the maintenance, repair and replacement (subject to warranty), as necessary, of the Project improvements. Such maintenance, repair and replacement shall be completed by the Association within a reasonable timeframe. In the event the Association fails to reasonably perform maintenance, repair or replacement in a reasonable timeframe, then ACWWA may do so and collect the costs thereof, plus all costs of collection, including attorneys' fees and costs, from the Association. The Association shall have access, with accompaniment by an ACWWA representative, as necessary to perform its obligations under this paragraph, including without limitation, the right to enter the well vault to access and activate, winterize and maintain and repair the irrigation back flow device. In addition to the specifications for the irrigation system set forth in **Exhibit A**, the irrigation system shall include a four station electric irrigation controller with continuous power, connected to four electric irrigation valves. The irrigation controller shall be located outside of the well vault, and access to the controller shall be provided to the Association as necessary to perform its obligations under this paragraph.

6. Irrigation for Project. ACWWA agrees to provide water for irrigation of landscape improvements associated with the Project so long as the total water used to irrigate the landscape improvements associated with the Project does not exceed the water currently being provided by ACWWA to irrigate the already existing landscape improvements on the Property. It is agreed that ACWWA currently provides approximately 35,000 gallons of water to irrigate the Property. In the event the total water used to irrigate the landscape improvements associated with the Project exceeds the approximated 35,000 gallons in a given calendar year, ACWWA shall invoice the Association for the additional water usage, at its then current water rate.

7. Abandonment of Race 1 Well. In the event that ACWWA abandons the Race 1 Well, the Association would then need to either:

- a. purchase an irrigation water tap from ACWWA for continued irrigation of the landscape improvements associated with the Project, or
- b. share equally with ACWWA in the cost to remove the installed landscaping improvements associated with the Project and reseed with native grasses with no continued irrigation.

8. Modification. This Agreement may not be amended, modified, or changed, in whole or in part, without a written agreement executed by the Parties.

9. Assignment. No Party shall assign this Agreement or any interest hereunder in whole or in part, without the prior written consent of each of the other Parties. Any assignment attempted with the prior written consent of all Parties hereto shall be deemed void, which consent shall not be unreasonably withheld, and of no force or effect. Consent to one assignment shall not be deemed to be consent to any subsequent assignment nor the waiver of any right to consent to such subsequent assignment.

10. Notices. Any notices or other communications required or permitted by this Agreement or by law to be served on, given to or delivered to any Party hereto, by the other Parties shall be in writing and shall be deemed duly served, given or delivered when personally delivered to the Party to whom it is addressed or in lieu of such personal services, upon receipt in the United States' mail, first-class postage prepaid, addressed as follows:
